# PEACHES GROW WILD ALONG A SCENIC ROUTE

## Participatory durational Performance

by **Jadi Carboni**

We live in a world based on a patriarchal perspective, and from this reality, women's existences are defined as limited, suppressing our versatile and rich nature. This truth has been established for centuries, and unconsciously or not, we adapt to this reality, even though different kinds of abuse and violence continue to characterize women's existence. **Peaches Grow Wild Along a Scenic Route** is an interdisciplinary, participatory performance that unfolds and juxtaposes strong images of women's roles. It is a journey where dance, visuals and the soundtrack of women's voices offer a place for reflection and empathy.
